

Name: Jason
Age: 27
Profession: Student
Location: Wien

Instrument: Piano
Experience: 18

Main reason: Structure, Overview
Secondary: Feedback

Jason is a very talented Piano player, however during his own practise he is quite unproductive and oftentimes does not know where to start. This is also the reason why he was not able to finish his Masters Degree. For this semester he intended to find a way to improve the structure of his exercise sessions. Another issue he has is that he often forgets his notes at home and thus misses to work on problems he noted during earlier sessions.
